Hike and Boat

For those guys who hike rather than see any places, is the coast path the nearest chance to hike. If you go this path to the south, you get to the Caipie Caves a natural wonder. But that's only a part of the tour. The path along you get to Anstruther. From there you can take boat trips to the Isle of May. Many animals lives there, for nature lover this is very cool. But book it in advance, the number of participants is limited.

Activities

I don't think you are in Scotland to stay in a house. You want to see historic places or hike trough the Scottish nature. You want Activitis. Here are our tips.

Scottish secret Bunker

If you're more interested in modern historic, then you have to go to the museum of Scotlands secret bunker. It was a bunker in the cold war, looking like a (heroic musik) farmhouse. That isn't a joke.

The Harbour

If you are in Crail, you have to see the little harbour of Crail, the only sight there. That historic place is the home of many crabs and they're fischers. Next to the harbour is the beach of Crail, but if you want to swim in there... Well wait for the summer, this is better for you. The temperatur is very cold
