HIGHLIGHT OF
THE YEAR

CLASS
TRIP

STRALSUND!

STRALSUND!

Class trip: On the 7th of July we went on a class trip to Stralsund. On the 10th of July we came back. The class trip was really fun. Even tho sometimes we had some problems like finding the local supermarket.

The classtrip was very good because of all of the different Tournaments we had like a table tennis tournament, a football tournament, a volleyball tournament and a foosball tournament. Playing all of these sports was very cool.

Our youth hostel had a nice breakfast which included things like bread, vegetables, cheese and egg. For lunch we got a lunchbox. The only thing which we really did not like were the people from the other schools. They randomly started yelling in the night and started to point at us with their flashlights. That was really annoying since we were not able to get our sleep.

One of the only things which was boring about the class trip was the long train ride. To walk from the local bus stop to the youth hostel was not very entertaining either. But overall the classtrip was still really good.

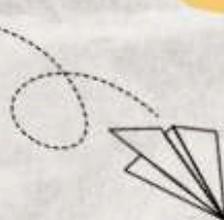

Highlights of the last Year

For many days we were looking forward to visiting the bowling center. On the way to the bowling center, our teachers took a class photo of us at the Tegel'er Lake. When we arrived at the bowling center, we divided into different groups. When the game started, we were all surprised by Mr. Bannwitz's bowling skills.

It was exciting to see who could win or lose. The food was also great. In the beginning there were snacks such as salt sticks and lollies. Then came the drinks that everyone had ordered. In the end, we also got the nachos that we shared with the other team. The whole game was very fun and exciting, as there was always a draw or differences. We all enjoyed being in the bowling center. It was a great day!

Our Classstrip

day 1. Arrival

day 2. rallye

Beachday

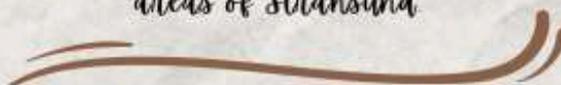

day 3. Events

day 4. Museum

The school trip was very funny and knowledgable because we were in different areas of Strahsund.

Jugend forscht

The club Jugendforscht, is an activity you can do in the afternoon. Basically it's something where you do research on for example about plants or animals etc. The amazing thing about it is that you're not just researching from books or the internet the research is also "in real life".

clubs

The Humboldt-Gymnasium has many sportclubs as you can see in the examples, rowing and running which are the most popular, but of course we do have more sports.

We offer many musical clubs from instrumental to vocal. Every year we go on a trip to Gnekikow. Make music together and many other fun things. Finally we come to 6K United. Where kids from many (including our) schools, have the amazing possibility to listen live to Lena Belgart, Frida Gold, Tim Bendzko and die Orsons. What is a once in a lifetime chance!

Musical clubs

Alois, Charlotte and Katarina had the destiny to meet the chancellor of Germany.

History of Humboldtgynasium Berlin-Tegel

- The school was founded in 1903
- First it was located in Schöneberger Straße (Today: Medebacher Weg).
- The name changed to “Humboldschule” in 1908.
- The name is related to both of the Humboldt Brothers (Alexander and Wilhelm von Humboldt).
- So there are many different subjects for example arts and science on the timetable. The school offers many different science classes.
- In contrast to most other schools in Berlin, the second foreign language that is taught is Latin.
- In 1910-1911 the new building was built, located in Hatzfeldtallee (formerly: Graf-Roedern-Korso). So today the building is more than one hundred years old.
- Today the building is under monument protection. There is no dress code for the kids and the hallways are very huge.
- There are two additional buildings today: the “Pavillon” (1997), which is located on the school yard and the “Grünes Haus” (2006/2007), located at Ziekowstraße/ Wilhelm-Blume-Allee.

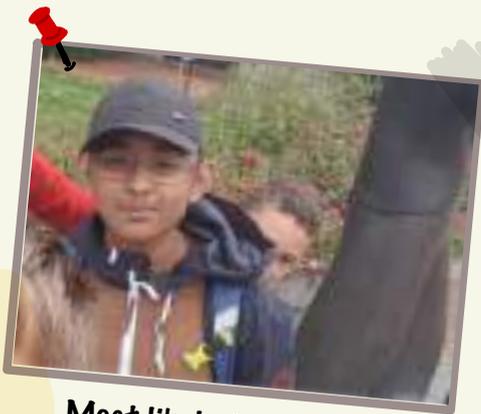

Superlatives

Most likely to be best at Sports

Prettiest Hair

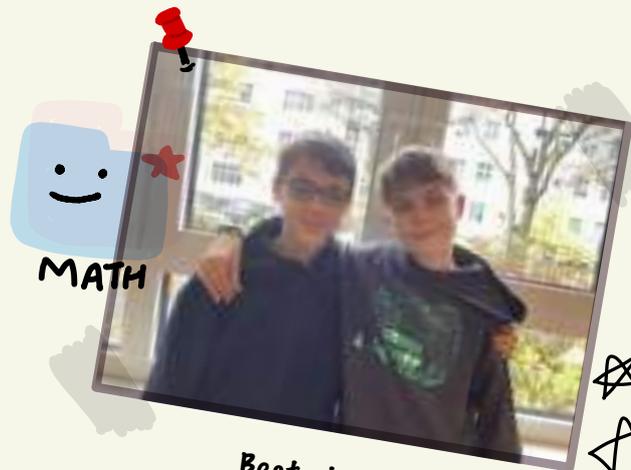

Most likely to graduate very well

Best Style

Most likely to go traveling after school

Best at Maths

Most likely to drive a fancy car one day

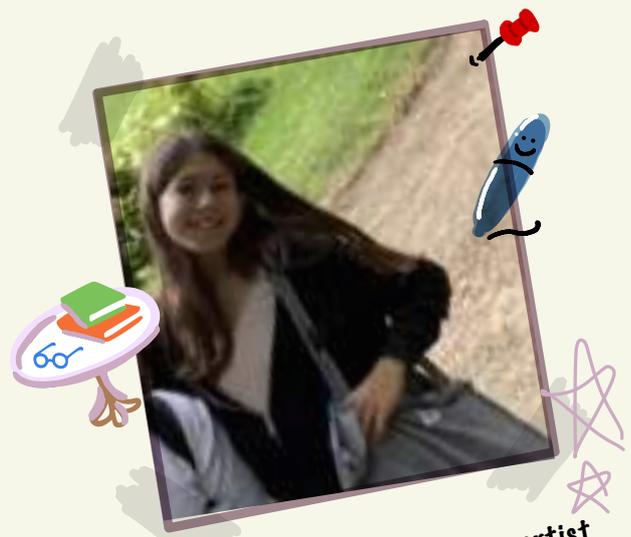

Most likely to become a millionaire

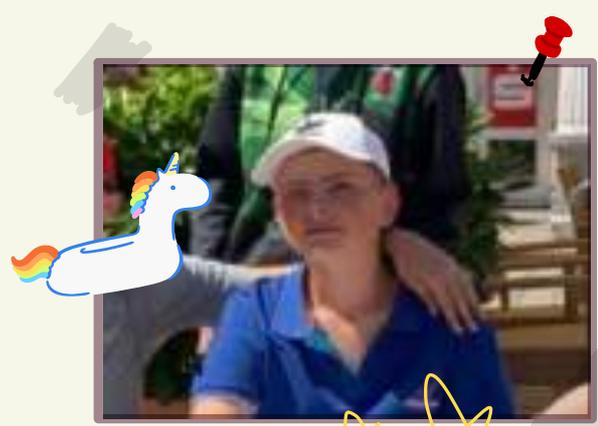

Most likely to participate in class

Best at explaining

Most likely to become an artist

Most likely to be a rowing champion
